Judges Said: It struck both the judges that this publication made a decision to devote a great amount of space to the impact one teacher had. Each article differed enough so the sum was greater than the individual pieces.

This entry was more than just a beautiful tribute to a valued colleague. It was a testament to good teachers everywhere and how their talents and commitment to the classroom cannot be measured by teacher evaluation formulas. The entry makes that point abundantly clear.

## Retiree

### United University Professions Retirees

**Publication: The Active Retiree**

Judges Said: The impact of professional layout, photography, headline writing, etc. clearly marks this publication above the others. Writing by members – Big Pharm Spells Big Trouble, Economic Equality, and Chapter Updates are a pleasure to read.

The overall package was excellent. The topics were timely, informative and uniformly well written. The graphics, layout and headlines enhanced the content and lifted the entry to a higher level.
